4.5 Dentistry	63
§5. ASSISTANCE DURING ILLNESS	63
§ 6. SCOPE OF HOSPITAL MEDICAL BENEFITS	65

§1. General information

- 1) Information on the selected insurance variant and option is provided in the insurance policy.
- 2) The insurer can choose for the insured person a variant combining insurance scopes, that guarantee both medical and cash benefits.
- 3) Cash benefits amount to 200 000 PLN in one policy year.
- 4) In case of benefits such as, CT scan, MRI scan, rehabilitation, hospital treatment, which require a medical consultant's approval, the insured person is obliged to send the referral to the given diagnostic examination, medical procedure, or other service to the Insurance Company e-mail: **ubezpieczenia@tuzdrowie.pl** or in a form of an MMS to: **723 444 999**. The referrals to diagnostic examinations are valid for 3 months from the issue date, whereas referrals to rehabilitation and hospital treatment are valid for 1 month.

1.1 Freedom of treatment

- 1) The insured person may use services of any medical facility in Poland.
- 2) Under the insurance contract, TU ZDROWIE does not require general practitioners' referral to a medical specialist.
- 3) Under the insurance contract, TU ZDROWIE accepts referrals to diagnostic examinations, rehabilitation, and hospital treatment, issued by any medical practitioner from any medical facility located in Poland.

1.2 Individual Group Assistant

To every group of insured persons and every employer an individual group assistant is assigned, in order to actively and directly support the employer/insurer in the process of carrying out the concluded insurance contract.

1.3 Individual VIP Assistant

The insured person may have an individual VIP assistant assigned to, in order to actively and directly support the insured person in the implementation of benefits.

The individual VIP assistant stays in contact with the insured person via phone or e-mail, organises diagnostic examinations and medical specialists' consultations in chosen medical facilities specified by the insurer.

The individual VIP assistant's role is to provide the highest level of comfort and efficiency in carrying out the services requested by the insured person.

1.4 Availability standards

- 1) When the insured person requests for a medical service to be arranged by the 24h Helpline, and does not indicate a specific medical practitioner or facility, the Insurance Company guarantees to provide the medical benefit in the scope of:
 - a) primary care within 24 hours from the moment of notification;
 - b) specialist consultation within 3 working days, subject to points 2, 3.

The guarantees specified above do not concern medical doctors with professor title or post doctoral degree and those who are indicated by a TU Zdrowie S.A. medical consultant to perform a medical service under Health Programmes.

- 2) Specialists' Consultations such as: anaesthesiologist, vascular surgeon, oncosurgeon, haematologist, infectious disease specialist, nephrologist, paediatric nephrologist, neurosurgeon, oncologist, proctologist, pulmonologist, rheumatologist, psychiatrist, and psychologist, are guaranteed to be performed within 5 working days from the moment of notification.
- 3) Consultations of specialist such as: andrologist, angiologist, audiologist, phoniatriest, gynaecologist – endocrinologist, hepatologist, hypertension specialist, immunologist, sports medicine specialist, tropical medicine specialist, medical rehabilitation specialist, sexuologist, traumatologist, cardio-thoracic surgeon, venerologist, are guaranteed to be performed within 7 working days from the moment of notification.
- 4) For other services, the availability standards are stated in the table "Scope of variants" in §4 as *Performance time guarantee from the moment of notification via 24 h Helpline*
- 5) The insured person is entitled to indicate his or her own preferences as to the date and location of the medical service performance.
- 6) Where the medical service is to be performed according to one's specific preferences mentioned in p. 5, availability standards are not applicable, and the date is set individually, according to the availability of the given benefit.
- 7) Availability standards described in p. 1-4 concern medical benefits that are performed by the Polish speaking staff only.
- 8) If TU Zdrowie do not meet availability standards described in p. 1-4, subject to p. 5-7, which is understood as inability to provide a medical service within timeframes specified above and :
 - a. within 40 km radius from the insured person's location, or;
 - b. in a city-county ie. Biała Podlaska, Białystok, Bielsko-Biała, Bydgoszcz, Bytom, Chełm, Chorzów, Częstochowa, Dąbrowa Górnicza, Elbląg, Gdańsk, Gdynia, Gliwice, Gorzów Wielkopolski, Grudziądz, Jastrzębie-Zdrój, Jaworzno, Jelenia Góra, Kalisz, Katowice, Kielce, Konin, Koszalin, Kraków, Krosno, Legnica, Leszno, Lublin, Łomża, Łódź, Mysłowice, Nowy Sącz, Olsztyn, Opole, Ostrołęka, Piekary Śląskie, Piotrków Trybunalski, Płock, Poznań, Przemyśl, Radom, Ruda Śląska, Rybnik, Rzeszów, Siedlce, Siemianowice Śląskie, Skierniewice, Słupsk, Sopot, Sosnowiec, Suwałki, Szczecin, Świętochłowice, Świnoujście, Tarnobrzeg, Tarnów, Toruń, Tychy, Wałbrzych, Warszawa, Włocławek, Wrocław, Zabrze, Zamość, Zielona Góra, Żory,

then the insured person is entitled to receive a cash benefit equal to the total amount of costs incurred for the medical service, under the condition that this service has been performed within a timeframe specified in p. 1-4, and in locations specified in p. 7 a and 7 b.

§2. Medical benefits

- 1) In order to be avail of a medical benefit, the insured person (or a person acting on behalf of the insured person) ought to notify of the necessity by calling **58 888 2 999**.
- 2) A 24h Helpline consultant will indicate the date and location of the given medical service performance or confirm that the insured person is entitled to arrange the given medical service on his or her own.
- 3) In case of diagnostic examinations arranged via 24h Helpline, it may be necessary to send a referral for the given diagnostic test, issued by a medical practitioner.

§3. Cash benefits (reimbursement for services arranged directly with medical facility)

If the insured person chooses not to use the non-cash medical services (medical benefit), he or she may receive cash benefit up to Upper Payment Limit Limit (specified for the given service in “Scope of variants” in § 4). In that case, in order to confirm the occurrence of insurance event, the insured person ought to:

- a. accept a medical service confirmation receipt if the service is provided in a medical facility which has access to the OLS system (on-line system of benefit authorisation), or;
- b. send the original or a readable copy of the issued invoice/receipt and the Benefit Claim Form available on the Insurance Company's website, to ubezpieczenia@tuzdrowie.pl, if the service was performed in any other medical facility.

§4. Scope of outpatient medical and cash benefits

4.1 Occupational Medicine

Within the scope of the chosen insurance option, the insured person is guaranteed medical services provided in order to protect employees' health against harmful working environment, and the way the work is performed, by the use of prophylactic medical services in the scope of Occupational Medicine, and other actions that prevent the emergence and spread of unfavourable health effects, that directly or indirectly relate to the conditions or nature of work,.

4.1.1. Prophylactic services in scope of Occupational Medicine

1) Prophylactic medical services in the scope of Occupational Medicine cover the medical services listed below:

- a. **control examinations** – medical examinations performed for every employee who returns to work after being unable to work due to sickness that lasted for more than 30 days.
- b. **periodic examinations** – medical examinations performed for every employee who works at a given working station, whose validity of Occupational Medicine certificate is about to expire;
- c. **preliminary examinations** – medical examinations performed for:
 - i. newly hired employees,
 - ii. employees transferred to other working place, where harmful factors or strenuous conditions are present;
 - iii. juvenile employees transferred to other working place,

including specialist and diagnostic examinations.

2) In order to avail of the prophylactic medical service in the scope of Occupational Medicine, the insurer is obliged to send a correctly filled form of referral to the e-mail address: medycyna_pracy@tuzdrowie.pl 10 working days prior to the day of employment commencement or expiration of certification.

3) TU Zdrowie S.A. coordinates the performance of prophylactic medical service in the scope of Occupational Medicine for the insurer's employees. In order to improve the provision of services, TU Zdrowie offers access to **On-line Occupational Medicine**

Platform . The system has been launched in order to supervise, monitor and appoint examinations in the scope of Occupational Medicine in the whole country.

4.1.2. Other services that prevent emergence and spread of unfavourable health effects, that directly or indirectly relate to conditions or nature of work

TU Zdrowie S.A., as part of activities aiming at the prevention of emergence and spread of unfavourable health effects that are related to the conditions or nature of work, provide also:

- a. attendance of a Occupational Medicine medical specialist in the workplace Health and Safety Committees;
- c. coordination and performance of group examinations in the workplace;
- a. Health Programmes;
- d. other examinations and services specific for given group of employees.

Health Programmes

As a part of prophylactic health care, with the meaning of activities preventing the emergence of unfavourable health effects, that are related to the consequences of diagnosis and suspicion of a civilization disease or trauma, which are directly or indirectly related to the conditions or nature of work, the insured person is guaranteed medical services covered by the insurance options chosen by the insurer (under art. 4 paragraph 4 of the Act of 27 June 1997 on occupational health services – Dz. U. 2014 r. poz. 1184 as amended).

The scope of the insurance covers services indicated by a TU Zdrowie S.A. medical consultant, in a consultation with an appointed practitioner, and according to the scope of services described in **Catalogue of Benefits – Health Programmes**, which are to shorten the period of absence at work.

Health Programmes:

- 1) **Mój Onkolog** (My Oncologist) – scope that guarantees performance of services leading to diagnosis, that allows to initiate without undue delay an optimal surgical treatment, chemotherapy, or radiotherapy, or exclusion of the diagnosis of cancer.
- 2) **Mój Ortopeda** (My Orthopaedist)– scope that guarantees performance of services leading to diagnosis, that allows to initiate without undue delay an optimal treatment and rehabilitation of a condition caused by a trauma that resulted in fracture, sprain or dislocation of a joint;

- 3) **Leczenie po Wypadku Komunikacyjnym** (Treatment after Traffic Accident) – scope that guarantees performance of services leading to diagnosis, that allows to initiate without undue delay an optimal treatment and rehabilitation of a condition caused by results of a traffic accident;
- 4) **Kontynuacja Leczenia Szpitalnego** (Continuation of Hospital Treatment) – scope that guarantees performance of services following a hospital treatment, that enable the diagnostic process or treatment to be concluded.

Upon the receipt of the „Health Programme Application Form” with attached diagnostic test results and/or referrals sent by the insured person to **ubezpieczenia@tuzdrowie.pl** e-mail address, a TU Zdrowie S.A. medical consultant will contact the insured person directly. The consultant will arrange the diagnostic process in consultation with the insured person, which will enable swift diagnosis and implementation of optimal treatment and/or rehabilitation.

When the TU ZDROWIE S.A. medical consultant indicates a specific location of the diagnostic test or consultation performance, the service is non-cash or TU ZDROWIE S.A. reimburses **100% of costs incurred by the insured person.**

4.2. Consultations and diagnostics

4.2.1. Descriptions of services

General description

The "Scope of variants" table presents medical and cash benefits that the insured person is entitled to. It includes Upper Payment Limit presented both as a % of the insurance sum and in PLN currency, where the insurance sum equals 200 000 zł.

Guaranteed timeframe for the service performance relates to services appointed and realized via 24 Helpline only.

The insured person can always arrange the service directly in the medical facility listed on Insurance Company's website, on his or her own. However, in certain medical facilities appointments need to be authorised by the 24h Helpline before the medical service is performed.

Primary healthcare – unlimited medical practitioners' consultations in scope of primary healthcare and nursing procedures

Service consists of: interview, medical practitioner's consultation including basic activities performed in order to diagnose the patient, decide upon and monitor the treatment.

An outpatient nursing service requires a medical practitioner's referral.

Note: "Unlimited medical practitioners' consultations in scope of primary healthcare" service does not include the consultation of medical practitioners with a post-doctoral degree or professor's title, or medical practitioners who hold a position of an assistant professor, associate professor or full professor.

Specialist healthcare – unlimited medical practitioners' consultations

Service consists of: interview, medical practitioner's consultation including basic activities performed in order to diagnose the patient, decide upon and monitor the treatment.

The service does not require general practitioner's referral.

Note: "Unlimited medical practitioners' consultations" service does not include the consultation of medical practitioners with a post-doctoral degree or professor's title, or medical practitioners who hold a position of an assistant professor, associate professor or full professor.

Specialist healthcare – unlimited procedures and other services performed by specialist physicians

Service includes taking basic measurements, diagnostic and treatment procedures, which do not require hospitalisation and the operating theater regime.

Note: The services are available on the basis of a referral issued by a medical practitioner.

Specialist healthcare – unlimited professors' consultations

Service includes a consultation of a practitioner with a post-doctoral degree or professor's title, as well as medical practitioners who hold a position of an assistant professor, associate professor or full professor, including all basic activities performed in order to diagnose the patient, decide upon and monitor the treatment.

The service does not require general practitioner's or specialist's referral.

Specialist healthcare – limited psychiatrists' or psychologists' consultations

Service includes limited access to psychiatrists' and psychologists' consultations, without the need to submit a referral.

The insured person is entitled to a maximum of 4 consultations per insurance year, per each specialization.

In case of sexuologist consultations the limit is for:

- the sum of sexuologists' and psychiatrists' consultations and
- the sum of sexuologists' and psychologists' consultations

in a following way:

- a. the sum of sexuologists' and psychiatrists' consultations cannot exceed 4.
- b. the sum of sexuologists' and psychologists' consultations cannot exceed 4.

Note: The service does not include consultations of medical practitioners with a post-doctoral degree or professor's title, or medical practitioners who hold a position of an assistant professor, associate professor or full professor.

Laboratory diagnostic tests

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of a therapeutical-diagnostic process exclusively.

Note: Guaranteed timeframe for the service performance relates to the maximum time counted from the moment of notifying the 24 Helpline about the necessity of the test performance, to the moment of samples' collection in the medical facility indicated by the 24h Helpline.

Radiological tests (X-rays)

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of a therapeutical-diagnostic process exclusively.

Note: Guaranteed timeframe for the service performance relates to the maximum time counted from the moment of notifying the 24 Helpline about the necessity of test performance, to the moment of the test performance in the medical facility indicated by the 24h Helpline.

Functional examinations

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of a therapeutical-diagnostic process exclusively.

Note: Guaranteed timeframe for the service performance relates to the maximum time counted from the moment of notifying the 24 Helpline about the necessity of test performance, to the moment of the test performance in the medical facility indicated by the 24h Helpline.

Ultrasound (USG)

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of therapeutical-diagnostic process exclusively.

Note:Guaranteed timeframe for the service performance relates to the maximum time counted from the moment of notifying the 24 Helpline about the necessity of test performance, to the moment of the test performance in the medical facility indicated by the 24h Helpline.

Endoscopic examinations

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of therapeutical-diagnostic process exclusively.

Note:Guaranteed timeframe for the service performance relates to maximal time counted from the moment of notifying 24 Helpline about the necessity of test performance, to the moment test performance in the medical facility which has been indicated by the 24h Helpline.

Computed tomography (CT scan)

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of therapeutical-diagnostic process exclusively.

Medical benefit is arranged via 24h Helpline and is performed according to the schedule of the medical facility, that has been indicated by the 24h Helpline consultant.

Note:In order to avail of the medical benefit, the insured person is obliged to send a referral to the Insurance Company to e-mail address: ubezpieczenia@tuzdrowie.pl or as an MMS to number **723 444 999**. Referrals are valid for 3 months from the issue date.

Magnetic resonance (MRI scan, NMR)

Service includes unlimited access to the diagnostic tests listed below.

Diagnostic tests are performed on the basis of a medical practitioner's referral and as a result of therapeutical-diagnostic process exclusively.

Medical benefit is arranged via 24h Helpline and is performed according to the schedule of the medical facility that has been indicated by the 24h Helpline consultant.

Note: In order to avail of the medical benefit, the insured person is obliged to send a referral to the Insurance Company to e-mail address: ubezpieczenia@tuzdrowie.pl or as an MMS to number **723 444 999**. Referrals are valid for 3 months from the issue date.

Home visits

Service includes unlimited access to the specific services listed below.

Home visits are made by general practitioners on the basis of medical indications exclusively, in case of, eg., acute infections, high fever, exacerbation of chronic diseases. Inconvenient access to medical facility or a need for prescription are not circumstances which justify the need for home visit.

Home visits by general practitioners or nurses are arranged non-cash way via 24h Helpline within the territory and schedule specified by the indicated medical facility. In certain cities in Poland home visits are a 24-hour service.

List of medical facilities that organise home visits is available via 24 h Helpline.

At anytime, the insured person may organise a doctor's and nurse's home visit on his or her own (any doctor/facility) and claim for reimbursement of costs incurred. The costs will be reimbursed on the the general terms up to the Upper Payment Limit.

In case of a suspicion of life threatening condition (heamorrhage, accident, loss of conciousness, convulsions, poisoning, sudden and strong pains in the thorax, intensive dyspnea) call emergency services directly.

Pre-natal care

Service includes pre-natal care performed by an obstetrician, which entails active counselling in the physiological process of pregnancy, labour and delivery.

The insured person will choose a method of an obstetric service being carried out at the beginning of pregnancy: via 24 h Helpline or by claiming cash benefits, ie., reimbursement of costs incurred. Insurance coverage excludes carrying out pre-natal care by more than one gynaecologist/obstetrician.

Pre-natal care includes unlimited access to services offered by the chosen gynaecologist/obstetrician with referred diagnostic tests.

As part of the benefit, the insured person has access to consultations, diagnostic tests, and other services specified by the chosen insurance variant.

Diagnostic tests are performed on the basis of a referral issued by a medical practitioner, as part of a therapeutical-diagnostic process exclusively.

Note:USG scans are performed once per pregnancy period which are indicated below.

Service does not cover the USG scans performed with the 4D method.

Vaccination and immunization

Service is available on the basis of a medical practitioner's referral and does not include influenza vaccinations.

The service includes the cost of the vaccines used, excluding combination vaccines.

Note: The service does not cover mandatory vaccinations performed according to the vaccination schedule (Announcement of the Chief Sanitary Inspector in relation to the Immunization Programme, current for the given year).

Antibodies against Brucella IgG		72 hours	-	-	-	+	+	0,040%	80,00 zł
Antibodies against Brucella IgM		72 hours	-	-	-	+	+	0,040%	80,00 zł
Antibodies against Chlamydia pneumoniae IgA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against Chlamydia pneumoniae IgG		72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against Chlamydia pneumoniae IgM		72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against Coxsackie type A and B IgM method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against cytoplasm (ANCA)		72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against Castle's intrinsic factor and delomorphous cells (APCA) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against glutamate decarboxylase (anti-GAD)		72 hours	-	-	-	+	+	0,055%	110,00 zł
Anti-double stranded DNA (native) – dsDNA (nDNA)		72 hours	-	-	-	+	+	0,055%	110,00 zł
Anti-dsDNA antibodies method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium – IgA – EmA IgA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium – IgG – EmA IgG		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium and gliadin, class IgA (total) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł

Name of service	Detailed description	Performance time guarantee from the moment of notification via 24 h Helpline	B	C	D	E	F	UPL (% of insurance sum)	UPL (PLN)
Antibodies against endomysium and gliadin, class IgG (total) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium and gliadin, class IgA and IgG (total) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium and reticulin IgA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium and reticulin IgG		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium IgG, IgA EmA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against endomysium, reticulin and gliadin IgA+IgG		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against Epstein-Barr virus (mononucleosis, EBV) IgM		72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against tyrosine phosphatase (IA2)		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against phosphatidylinositol IgG		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against phosphatidylinositol IgM		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against gliadin (AGA) - class IgG and IgA (total) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against gliadin class IgA - AGA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against gliadin class IgG - AGA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against Ascaris lumbricoides IgG		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against HAV	fraction IgM	72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against HAV	total level	72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against HBc (total)		72 hours	-	-	-	+	+	0,028%	56,00 zł
Heterophile antibodies		72 hours	-	-	-	+	+	0,028%	56,00 zł
Anti-nuclear antibodies (ANA1)		72 hours	-	-	-	+	+	0,028%	56,00 zł
Anti-nuclear antibodies (ANA2)		72 hours	-	-	-	+	+	0,028%	56,00 zł
Anti-nuclear antibodies (ANA3)		72 hours	-	-	-	+	+	0,028%	56,00 zł
Anti-nuclear antibodies and anti-cytoplasmic antibodies (1), screening method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against bile canaliculi, method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against cardiolipin - class IgG and IgM (total) method ELISA		72 hours	-	-	-	+	+	0,028%	56,00 zł
Antibodies against delomorphous cells (APCA) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against adrenal cortex		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against Listeria monocytogenes qualitatively		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against smooth muscles ASMA		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against skeletal striated muscles and cardiac muscle (miasthenia gravis) method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł
Antibodies against skeletal striated muscles method IIF		72 hours	-	-	-	+	+	0,055%	110,00 zł

4.4 Rehabilitation

Children under the age of 15 are entitled to rehabilitation services **only due to bone fractures, sprains, dislocations**.

Rehabilitation services to treat and protect against complications of post bone fractures, sprains, dislocations, apply to insurance events/illnesses which occurred under the insurance coverage period only.

In order to avail of rehabilitation services, a copy of a referral must be sent to a medical consultant of TU Zdrowie S.A. using the following means: via an MMS to number **723 444 999** or e-mail address: **ubezpieczenia@tuzdrowie.pl**. Medical benefits arranged via 24 hour Helpline are provided in accordance to the working schedule of the medical facility indicated by the 24 hour Helpline medical consultant.

The insured person is entitled to services in the scope of manual therapy, massages and isometric exercises, that are included in the scope of REHA 4 option, **due to medical indications only, as part of rehabilitation of medical conditions resulting from injuries which have occurred in the insurance coverage period**.

§5. Assistance During Illness

- Benefits guaranteed under Assistance During Illness variant are listed below. The insured person is eligible for the following benefits if an insurance event occurs during the insurance coverage period, and the circumstance entitles the insured person to use such benefit, i.e., sudden illness/condition caused by a disease agent or other, eg., mechanical, thermal, or electrical agents.
- The benefits are processed by **Centrum Operacyjne AWP**, with headquarters in Warsaw at Ulica Domaniewska 50B, phone number: **(0 48) 22 563 12 09** or **(0 48) 383 22 09** fax. (0 48) 22 522 23 05, operating on the 24/7 basis.
- The costs of the insurance benefits are covered up to the limits specified in the table below. A possible difference is covered by the insured person.

4. The limits referred to in paragraph 3, constitute the UPL for every insurance occurrence during the insurance period and are separate for every insured person.
5. An unlimited number of insurance events is covered by the insurance during the insurance period.
6. In case of ASSISTANCE DURING ILLNESS option I, the payment limits for organizing and cost coverage of the benefits guaranteed apply to specific benefits per one insurance event, with a possibility to have the same benefit provided multiple times within the UPL for that specific benefit.
7. In case of ASSISTANCE DURING ILLNESS option II, the maximum payment limit applies to all benefits per one insurance event, with a possibility to have the same benefit provided multiple times within the available total limit for all the benefits per one insurance event.

§ 6. Hospital scope of medical benefits

Services guaranteed to the insured person as part of a given insurance option are listed below.

The policyholder may supplement the outpatient insurance option with a hospital scope of medical benefits.

3 months after the commencement of the insurance coverage (i.e. after 3 months of waiting period), the insured person is guaranteed planned hospital treatment/procedures, i.e. a treatment which may be performed 14 days after the referral was issued

The Insurance Company must be notified of all hospital services in order to arrange them.

The scope of the option **excludes any hospital treatment performed in a state of health- or life-threatening emergency.**

"Operation" is to be understood as a performance of a treatment/procedure in accordance to medical practitioner's indications and with a method considered by the medical practitioner operating or referring to be the best and safest for the health of the particular insured person, i.e. the laparoscopic or endoscopic methods, a percutaneous method or other (unless the Catalogue of Benefits guarantees performance of the service with a use of a particular, described method).

In order to determine the date and location of a service performance, the obtained referral must be sent as an MMS to the following phone number: **723 444 999**, or to the e-mail address: **ubezpieczenia@tuzdrowie.pl**.

A TU Zdrowie S.A. medical consultant may contact the insured person within 2 working days subsequent to the date of receiving the referral, in order to obtain additional information, which will confirm the compulsory character of the treatment and allow to determine the best medical facility.

A 24-hour Helpline consultant will determine the date and location for the performance of the service.

The process of hospital treatment is supervised by the indicated TU ZDROWIE S.A. medical consultant, who constantly monitors the organisation of the treatment's course.
