§1. General information

- 1) Information on a selected insurance option and sub-option is given on the insurance policy.
- 2) Insurer can choose a variant, combining insurance extents, that guarantee both medical and financial benefits for the Insured person.
- 3) Sum insured for the financial benefits equals 100 000 PLN in one policy year.
- 4) As for the benefits such as: CT scan, MR scan, rehabilitation, hospital treatment, that require the approval of Medical Consultant, Insured person is obliged to send referral to diagnostic test, treatment or other service, to the Insurance Company at e-mail address: **ubezpieczenia@tuzdrowie.pl** or as a MMS at phone number **723 444 999**. Referrals to diagnostic tests are valid for 3 months from the date of its issuing, referrals to rehabilitation and hospital treatments are valid for 1 month.

1.1 Freedom of treatment

- 1) Insured person may obtain benefit from every medical facility in Poland.
- 2) As a part of the insurance contract, TU ZDROWIE does not require general practitioners' referral to the medical specialist.
- 3) As a part of the insurance contract, TU ZDROWIE implements the referrals to the diagnostic tests, rehabilitation and hospital treatment issued by any medical practitioner, from every medical facility located in Poland.

1.2 Individual Group Assistant

To every group of Insured persons, and every employer, Individual Group Assistant is assigned in order to actively and directly support the employer/Insurer in the process of operation of the concluded insurance contract.

1.3 Individual VIP Assistant

Insured person can have the Individual VIP Assistant assigned to, in order to actively and directly support Insured person in the implementation of benefits.

Individual VIP Consultant stays in telephone and e-mail contact with the Insured person, organises diagnostic tests and medical specialists' consultations in the chosen medical facilities.

Individual VIP Consultant ought to guarantee the best comfort and efficient service in the extent of services implementation.

1.4 Availability standards

1) When a medical benefit, which performance is arranged via 24 h Helpline, is to be used and Insured person does not indicate specific MD or medical facility to be appointed, then Insurance company guarantees implementation of a medical benefit in scope of:

- a. primary care within 24 hours from the moment of notification;
- b. specialist care consultation within 3 working days, including reservations from p. 2, 3.

Guarantees specified above do not concern medical doctors with professor or post doctoral titles and those who have been indicated by the TU Zdrowie S.A. Medical Consultant as a part of Health Programmes implementation.

- 2) Consultation of specialist physicians such as: anaesthesiologist, vascular surgeon, oncosurgeon, haematologist, infectious disease specialist, nephrologist, pediatric nephrologist, neurosurgeon, oncologist, proctologist, pulmonologist, rheumatologist, psychiatrist and psychologist, is guaranteed to be performed within 5 working days from the moment of notification.
- 3) Consultation of specialist physicians such as: andrologist, angiologist, audiologist, phoniatriist, gynaecologist – endocrinologist, hepatologist, hypertension specialist, immunologist, sports medicine specialist, tropical medicine specialist, medical rehabilitation specialist, sexuologist, traumatologist, cardio-thoracic surgeon, venerologist, is guaranteed to be performed within 7 working days from the moment of notification.
- 4) For other services, availability standards are specified as a time guarantee in table considering the extent of benefits, in § 4.
- 5) Insured person is entitled to specify own preferences concerning date and location of the medical service execution.
- 6) In case when the medical service is to be performed according to one's specific preferences, mentioned in p. 5, availability standards are not applicable, and the date is set individually, accordingly to the availability of the given benefit.
- 7) Availability standards described in p. 1-4 concern only medical benefits that are performed by the Polish speaking staff.
- 8) If TU Zdrowie do not meet availability standards described in p. 1-4, including reservations from p. 5-7, which means, is unable to implement medical benefit within timeframes specified above and :
 - a. within 40 km radius from the Insured person's location, or;
 - b. in a city-county ie. Biała Podlaska, Białystok, Bielsko-Biała, Bydgoszcz, Bytom, Chełm, Chorzów, Częstochowa, Dąbrowa Górnicza, Elbląg, Gdańsk, Gdynia, Gliwice, Gorzów Wielkopolski, Grudziądz, Jastrzębie-Zdrój, Jaworzno, Jelenia Góra, Kalisz, Katowice, Kielce, Konin, Koszalin, Kraków, Krosno, Legnica, Leszno, Lublin, Łomża, Łódź, Mysłowice, Nowy Sącz, Olsztyn, Opole, Ostrołęka, Piekary Śląskie, Piotrków Trybunalski, Płock, Poznań, Przemyśl, Radom, Ruda Śląska, Rybnik, Rzeszów, Siedlce, Siemianowice Śląskie, Skierniewice, Słupsk, Sopot, Sosnowiec, Suwałki, Szczecin, Świętochłowice, Świnoujście, Tarnobrzeg, Tarnów, Toruń, Tychy, Wałbrzych, Warszawa, Włocławek, Wrocław, Zabrze, Zamość, Zielona Góra, Żory, then Insured person is entitled to financial benefit, equal to total expense borne for the medical service, only if this service has been performed within a timeframe specified in p. 1-4, in locations specified in p. 7 a and 7 b.

§2. Medical benefits

- 1) In order to receive medical benefit, this necessity ought to be notified at phone number **58 888 2 999**.
- 2) 24 h Helpline Consultant shall indicate the date and location of a given medical benefit performance or confirm the entitlement of the Insured person to appoint given medical benefit on his/hers own.
- 3) In case of diagnostic tests implemented via 24h Helpline , it may be required to send the referral for the given diagnostic test, issued by the medical practitioner.

§3. Financial benefits

If Insured person chooses not to use non-cash realisation of medical services (medical benefit), he/she can receive financial benefit up to Upper Liability Limit (specified for the given service in "Variant extent" in § 4). In that case, in order to confirm the occurrence of insurance event, Insured person ought to:

- a. accept the application of benefit receipt, in case of realisation of service directly in the Medical Facility which has the access to the OLS system (on-line system of benefit authorisation), or;
- b. send the original or readable copy of the issued invoice/receipt and the reimbursement application, filled in the Insurance Company's form, available at Insurance Company's website, and send to ubezpieczenia@tuzdrowie.pl, if the service has been performed in any other medical facility.

§4. Extent of outpatient medical and financial benefits

4.1 Occupational Medicine

Insured person is entitled to medical services performed in order to protect health of employees from harmful working environment and the way of the work execution, with the use of prophylactic medical services in scope of Occupational Medicine field and other activities that prevent from the occurrence and spreading of unfavourable health implications, caused by the conditions or the nature of work, and within the extent of the chosen insurance option.

4.1.1. Prophylactic services in scope of the Occupational Medicine

1) Prophylactic medical services in scope of Occupational Medicine cover the extent of the medical services listed below:

- a. **control examinations** – medical examinations performed for every employee who returned to work, after the sickness that lasted for more than 30 days, which resulted in inability to work.
- b. **periodic examinations** – medical examinations performed for every employee who work at a certain working place, whose validity of Occupational Medicine certificate is about to expire;
- c. **initial examinations** – medical examinations performed for:
 - i. Newly hired employees,
 - ii. Employees transferred to other working place, where harmful agents or strenuous conditions are present;
 - iii. Juvenile employees transferred to other working place,

including specialist and diagnostic examinations.

2) In order to obtain prophylactic medical service in scope of Occupational Medicine, Insurer is obliged to send correctly filled in form of referral at e-mail address: medycyna_pracy@tuzdrowie.pl 10 working days prior to the day of employment beginning or expiration of certification.

3) TU Zdrowie S.A. coordinates the implementation of prophylactic medical service in scope of Occupational Medicine for the employees of Insurer. In order to improve the realisation of services, TU Zdrowie offers the access to **On-line Occupational Medicine Platform**. The system has been launched in order to supervise, monitor and appoint examinations in scope of Occupational Medicine in the whole country.

4.1.2. Other services that are implemented in order to prevent the occurrence and spreading of unfavourable health implications, caused by the conditions or the nature of work

TU Zdrowie S.A., as a part of activities aiming at the prevention of the occurrence and spreading of unfavourable health implications that are related to the conditions or nature of work, provides also:

- a. the attendance of the Occupational Medicine specialist in the workplaces' Health and Safety Committees;
- b. coordination and provision of the group examinations in the workplace;

Health Plans;

other examinations and services specific for given group of employees.

Health Plans

As a part of prophylactic health care, which is interpreted as an activities which prevent unfavourable health implications, that are related to the implications of diagnosis and suspicion of the civilization disease or trauma, which are directly or indirectly related to the conditions or nature of work, Insured person is entitled to the medical services in scope of the insurance options chosen by the Insurer (accordingly to the article 4 paragraph 4 of the act of 27th June 1997 relating to the occupational medicine service – Dz. U. 2014 r. poz. 1184 with further changes).

Extent of the insurance covers services indicated by the TU Zdrowie S.A. Medical Consultant, in consultation with the practitioner, and accordingly to the range of services described in **Catalogue of Benefits – Health Plans**, which are to shorten the period of absence in work.

Health Plans:

- 1) **My Oncologist** – extent that guarantees realisation of services performed in order to diagnose, which shall enable swift implementation of optimal surgical treatment, chemotherapy, or radiotherapy, or exclude the diagnosis of cancer.

- 2) **My Orthopaedist** – extent that guarantees realisation of services performed in order to swiftly implement the optimal treatment and rehabilitation of the sickness, which had been caused by the trauma that resulted in fracture, sprain or dislocation of joint;
- 3) **Treatment after the Traffic Accident** – extent that guarantees realisation of services in order to diagnose, which shall enable swift implementation of optimal treatment and rehabilitation of the sickness that have resulted from the traffic accident;
- 4) **Continuation of Hospital Treatment** – extent that guarantees realisation of services, following the hospital treatment, and enabling the diagnostic process or treatment to be concluded.

After receipt of the „Application for the implementation of Health Programme” with the attached diagnostic test results and/or referrals sent by the Insured person, at ubezpieczenia@tuzdrowie.pl e-mail address, TU Zdrowie S.A. Medical Consultant shall reach out to the Insured person directly in order to organise and appoint the diagnostic process in consultation with the Insured person, which shall enable the swift implementation of optimal treatment and/or rehabilitation.

In case when the TU ZDROWIE S.A. Medical Consultant indicates the specific location of the diagnostic test or consultation performance, benefit is realised non-cash way or TU ZDROWIE S.A. reimburses **100% of costs borne by the Insured person.**

4.2.1. Descriptions of services

General description

In the "Extent of variants" table medical and financial benefits (including Upper Limit of Liability – presented as a % of insurance sum and in PLN currency, when the insurance sum equals 100 000 zł) guaranteed to the Insured person have been shown.

Guaranteed timeframe for the service performance relates to services appointed and realised via 24 Helpline only.

Insured person can always appoint the service in the medical facility, listed on Insurance Company's website, on his/hers own, however in certain medical facilities appointments need to be authorised by the 24h Helpline before the benefit implementation.

Basic healthcare – unlimited medical practitioners' consultations in scope of basic healthcare and nursing treatments

Service consists of: interview, medical practitioner's consultation including basic activities performed in order to diagnose the patient and monitor the treatment.

Implementation of outpatient nursing service requires medical practitioner's referral.

Note: "Unlimited medical practitioners' consultations in scope of basic healthcare" service does not include the consultation of medical practitioners titled with the postdoctoral or professor's title, as well as medical practitioners who hold a position of associate professor.

Specialist healthcare – unlimited medical practitioners' consultations

Service consists of: interview, medical practitioner's consultation including basic activities performed in order to diagnose the patient and monitor the treatment.

Implementation of service does not require general practitioner's referral.

Note: "Unlimited medical practitioners' consultations" service does not include the consultation of medical practitioners titled with the postdoctoral or professor's title, as well as medical practitioners who hold a position of associate professor.

Specialist health care – unlimited treatments and other services performed by specialist physicians

Service consists of collection of basic measurements, including those of diagnostic and treating nature, which do not require hospitalisation and the operating theater regime.

Note: Services are implemented basing on the referral issued by the medical practitioner.

Specialist healthcare – unlimited professors' consultations

Service consists of the consultation of the practitioner titled with the postdoctoral or professor's title, as well as those who hold a position of associate professor, including every activities performed in order to diagnose the patient and monitor the treatment.

Implementation of service does not require general practitioner's or specialist physician's referral.

- Specialist healthcare – limited consultations of psychiatrists or psychologists

Service consists of limited access to the consultations of psychiatrists and psychologists, without the need to submit the referral.

Insured person is entitled to maximum of 4 consultations per insurance year, per each specialization.

In case of need for the sexuologist consultation limit is specified for:

- sum of sexuologists' and psychiatrists' consultations and
- sum of sexuologists' and psychologists' consultations

in a following way:

- a. sum of sexuologists' and psychiatrists' consultations cannot exceed 4.
- b. sum of sexuologists' and psychologists' consultations cannot exceed 4.

Note:Service does not include the consultation of medical practitioners titled with the postdoctoral or professor's title, as well as medical practitioners who hold a position of associate professor.

Laboratory diagnostic tests

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Note:Guaranteed timeframe for the service performance relates to maximal time counted from the moment of notifying 24 Helpline about the necessity of test performance, to the moment of samples' collection in the medical facility which has been indicated by the 24h Helpline.

Radiological tests (X-ray)

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Note:Guaranteed timeframe for the service performance relates to maximal time counted from the moment of notifying 24 Helpline about the necessity of test performance, to the moment test performance in the medical facility which has been indicated by the 24h Helpline.

Functional tests

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Note:Guaranteed timeframe for the service performance relates to maximal time counted from the moment of notifying 24 Helpline about the necessity of test performance, to the moment test performance in the medical facility which has been indicated by the 24h Helpline.

Ultrasonography (USG)

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Note:Guaranteed timeframe for the service performance relates to maximal time counted from the moment of notifying 24 Helpline about the necessity of test performance, to the moment test performance in the medical facility which has been indicated by the 24h Helpline.

Endoscopic tests

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Note:Guaranteed timeframe for the service performance relates to maximal time counted from the moment of notifying 24 Helpline about the necessity of test performance, to the moment test performance in the medical facility which has been indicated by the 24h Helpline.

Computed tomography (CT scan)

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Medical benefit is implemented via 24h Helpline and realised accordingly to the schedule of the medical facility, that has been indicated by the 24h Helpline Consultant.

Note:In order to obtain the medical benefit, Insured person is obliged to send referral to the Insurance Company at e-mail address: ubezpieczenia@tuzdrowie.pl or as MMS at phone number **723 444 999**. Referrals are valid for 3 months from the time of issueing.

Magnetic resonanse (MR, NMR)

Service consists of unlimited access to the diagnostic tests listed below.

Diagnostic tests are realised basing on the medical practitioner's referral and as a result of therapeutical-diagnostic process only.

Medical benefit is implemented via 24h Helpline and realised accordingly to the schedule of the medical facility, that has been indicated by the 24h Helpline Consultant.

Note:In order to obtain the medical benefit, Insured person is obliged to send referral to the Insurance Company at e-mail address: ubezpieczenia@tuzdrowie.pl or as MMS at phone number **723 444 999**. Referrals are valid for 3 months from the time of issueing.

Home visits

Service consists of unlimited access to the specific services listed below.

Home visits are realised by the general practitioners, basing on the medical indications, in case of eg. acute infections, high fever, exacerbation of chronic diseases. Inconvenient access to medical facility or need for prescription issueing are not the circumstances which justify the need for home visit.

Home visits of general practitioners or nurses are realised non-cash way via 24h Helpline within the specified territory and within schedule specified by the indicated medical facility. In a certain cities in Poland home visits can be realised 24 h.

List of the medical facilities that organise home visits is available via 24 h Helpline.

At anytime, Insured person can organise medical and nurse home visit on his/hers own and apply for reimbursement of costs borne by him/her. Costs shall be reimbursed basing on the general terms, up to the Upper Limit of Liability.

In case of a suspicion of life threatening condition (heamorrhage, accident, loss of conciousness, convulsions, poisoning, sudden and strong pains in the thorax, intensive dyspnea) Insured person ought to call emergency services directly.

Pregnancy management

Service consists of physiological pregnancy management by the obstetrician and includes active counselling in the physiological process of pregnancy, labour and delivery.

Insured person shall choose the method of obstetric service implementation at the beginning of pregnancy : via 24 h Helpline or financial benefits ie. Reimbursement of borne costs. Insurance coverage excludes management of pregnancy performed by more than one gynaecologist/obstetrician.

Service includes unlimited access to the services offered by chosen gynaecologist/obstetrician with the referred diagnostic tests.

As a part of insurance coverage, Insured person has access to the diagnostic tests and other services specified by the chosen insurance variant.

Diagnostic tests are realised basing on the referral issued by the specialist physician, only as a part of the therapeutical-diagnostic process.

Note:USG scans are performed once per pregnancy period which are indicated below.

Service does not cover the USG scans performed with the 4D method.

Vaccination and immunization

Service, excluding the influenza vaccinations, is available basing on the medical practitioner's referral.

Service includes the cost of the vaccines used, excluding the combination vaccines.

Note:Service does not cover obligatory vaccinations performed accordingly to the vaccination schedule (Announcement of the Main Sanitary Inspector relating to the Immunization Programme, current for the given year).

USG - kidneys, urinary system, urinary bladder			-	-	+	0,060%	60,00 zł

4.4 Rehabilitation

Children under 15 years of age are entitled to rehabilitation services **only after bone fractures, sprains, dislocations.**

Rehabilitation services due to bone fractures, sprains, dislocations apply to the treatment and protection against complications arising only from insurance events/diseases which have occurred during the insurance coverage period.

In order to access rehabilitation services, a copy of the referral must be sent to the Medical Consultant of TU Zdrowie S.A. using the following means: via an MMS at numer **723 444 999** or at the following e-mail address: **ubezpieczenia@tuzdrowie.pl**. Medical benefits performed via 24 hour Helpline are provided in accordance to the working schedule of a medical facility that has beendetermined by the 24 hour Helpline Medical Consultant.

The Person Insured is entitled to the services in scope of of manual therapy, massages and isometric exercises that are included in the extent of REHA 4 option, **only due to medical recommendations, as a part of rehabilitation, resulting from the conditions being a consequence of an injury which has occurred during the insurance coverage period.**

§5. Assistance during a sickness

- The benefits guaranteed in scope of Assistance during a sickness option are listed below. The Person Insured is entitled to the following benefits if an insurance event occurs during the insurance coverage, so that given circumstance entitles the Person Insured to use such a benefit, i.e. emergencies which are caused by a causative agent of a disease or another agent, including mechanical, thermal or electrical agents.
- The benefits are processed by **Centrum Operacyjne AWP**, with headquarters in Warsaw at Ulica Domaniewska 50B, phone number: **(0 48) 22 563 12 09** or **(0 48) 383 22 09** fax. (0 48) 22 522 23 05, operating on the 24 hour/7day basis.
- The insurance benefits costs are borne up to the limits of liability, specified in the following Table, a possible difference is covered by the Person Insured.
- Limits which are mentioned in paragraph 3 constitute the ULL in regard to every insurance occurrence during the Insurance Period and are separate for every Person Insured.
- During the Insurance Period, the insurance coverage covers an unlimited number of the insurance events.
- As for the ASSISTANCE DURING A SICKNESS option I, the limited sums for organisation and the coverage of costs of the benefits guaranteed, relate to specific benefits per one insurance event, with the possibility to have the same benefit provided several times within the ULL for that specific benefit.
- As for the ASSISTANCE DURING A SICKNESS option II, the limited sums for organisation and coverage of costs of the benefits guaranteed, relate to specific benefits per one insurance event, with the possibility to have the same benefit provided several times within the available total limit for all the benefits per one insurance event.

§ 6. Extent of hospital medical benefits

Services guaranteed to the Person Insured as a part of a given insurance option are listed below.

The Insured person may add insurance benefits of the hospital extent to the outpatient insurance option.

After 3 months from the start of the insurance coverage (i.e. after 3 months of the deductible period), the Person insured has the planned hospital treatment guaranteed, i.e. such a treatment which may be performed after 14 days from the date of the issue of the referral.

All the hospital services must be reported to the Insurance Company in order to approve and prepare the implementation of such a benefits.

The extent of the option **excludes the hospital treatment which is performed during a serious emergency medical condition.**

The word “intervention” is used here for the performance of a treatment in accordance to the medical practitioner's indications and with the method chosen by the medical practitioner who is to perform the intervention or the one referring, the method is chosen to be the best and safest for the health of a particular Person Insured, i.e. the laparoscopic or endoscopic methods, a percutaneous method or others (unless the Catalogue of Benefits guarantees the performance of service with the use of a particular, described method).

For the determination of the date and place for the performance of a service, the obtained referral must be sent at the following phone number as MMS: **723 444 999**, or at the e-mail address: **ubezpieczenia@tuzdrowie.pl**.

A Medical Consultant of TU Zdrowie S.A. may contact the Person Insured within 2 days from the date of the delivery of the referral in order to obtain additional information which will confirm the compulsory character of the treatment and to determine the best Medical Facility.

A 24-hour Helpline Consultant will determine a place and dates for the performance of the service.

The process of the hospital treatment is supervised by the indicated TU ZDROWIE S.A. Medical Consultant who constantly monitors the organisation of the treatment's course.
